Subject: **Petroleum Service Contract No. 55**  
**Offshore Southwest Palawan**

Madam:

Please be informed that the SC 55 Operator, Otto Energy Investments, Ltd., provided Palawan55 Exploration & Production Corporation ("Palawan55"), subsidiary of Trans-Asia Petroleum Corporation, the following update on the drilling of the Hawkeye-1 exploratory well.

The well has been drilled to its final total depth of 2,920 meters. Hydrocarbons, mainly gas, were recorded between 2,710 to 2,737 meters in reservoir of variable quality. Fluorescence, which usually indicates oil, was observed in drill cutting returns obtained from the same depth interval.

According to log interpretation, the rock sequence below 2,737 meters contained good quality reservoirs which are water-saturated.

While the volume of hydrocarbons inferred from the well results is not of economic significance, Hawkeye-1 proved the presence of a petroleum system in the contract area. The Operator will evaluate its implications to the prospectivity of Cinco and other prospects and leads in the block in due course.

Palawan55 holds 6.82% participating interest in SC 55.

Very truly yours, -

  
**Cecille B. Arenillo**
